

United States[®] Census 2010

North Mankato is partnering with the U.S. Census Bureau to help achieve a complete and accurate account of our nation's population during the 2010 Census. Every year the federal and state governments distribute aid to local governments based on Census data. A lack of participation in the 2010 Census may result in our community receiving less state and federal funding and less access to important services and resources than we might otherwise have received.

- Your 2010 Census form will arrive by mail in March.
- The 2010 Census form asks 10 questions and takes about 10 minutes to complete.
- Complete and mail back the census form as soon as it arrives.
- Census workers will visit households that do not return forms to take the count in person.
- Participation is easy, important and safe. By law, your personal information cannot be shared with anyone.
- Your participation is vital to shape the future and create change for our community.

You can make a difference for North Mankato by completing and returning your Census form.
